

# COVE-P

SOIL  
&  
FOLIAR

# COVE-P

ACTIVE PACK

**BENEFITS:**

PROTECTS PHOSPHATE FROM LOSS INCREASING PLANT AVAILABILITY

PROMOTES ROOTING FOR IMPROVED NUTRIENT UPTAKE AND DROUGHT RESISTANCE

DECREASES "SALT EFFECT" OF APPLIED FERTILIZER

INCREASES UPTAKE OF NON-APPLIED NUTRIENTS

# COVE-P

Elevate your crop's phosphate efficiency with our Cove-P! This groundbreaking product is engineered to protect phosphate through our proprietary complexing agents, ensuring that your crops receive the maximum benefit from each application. But the "Cove-P" doesn't stop there - it also enhances uptake and utilization efficiency. This is achieved through enhanced rooting and plant health. Invest in the "Cove-P" today and watch your crops thrive like never before!

## NUTRIENT ANALYSIS

Total Nitrogen (N).....	3.00%
3.00% Ammonium Nitrogen	
Soluble Phosphate (P2O5) .....	8.00%
Soluble Potash (K2O).....	8.00%
Sulfur (S).....	1.00%

Derived from: Ammonium Phosphate, Potassium Phosphate, Potassium Hydroxide.

## PROFESSIONAL USE GUIDELINES

### RATE OF APPLICATION

FOR USE WITH PHOSPHATE SOLUTIONS SUCH AS 10-34-0: Use a 8 L to 100 units actual phosphate (Eg. 96L of 10-34-0 to 4L of COVE-P)

METHODS OF APPLICATION: COVE-P may be applied through conventional methods but not limited to foliar spray, soil application, drip irrigation, water run, shanking in or hydroponically.

### APPLICATION TIMING

COVE-P can be applied at anytime, but is most effective when applied with fertilizers in which enhanced efficiency is desired.

### COMPATIBILITY

COVE-P is compatible with most commodity agricultural products. Adding additional water to tank mixes will always improve compatibility. Always establish compatibility using the standard quart jar method prior to tank mixing.

### STORAGE

Do not store where temperatures drop below 0 C.
