

FJORD-P

SOIL
&
FOLIAR

FJORD-P

BENEFITS:

SUPPLIES TOOLS FOR ENERGY (ATP) PRODUCTION IN THE PLANT

PROVIDES THE PLANT WITH EASY TO ACCESS PHOSPHATE

STIMULATES ROOT GROWTH

IMPROVED STRESS RESILIENCE

CONTAINS COMPLEXED PHOSPHATE

UP TO 10X MORE AVAILABLE THAN SOIL APPLIED PHOSPHATE

ADDED K FOR IMPROVED WATER MOVEMENT MAXIMIZING THE BENEFITS OF THE PHOSPHATE

FJORD-P

Introducing FJORD-P, a complexed phosphate product with a potassium booster specifically formulated for foliar application. The nutrients in Fjord-P are up to 10X more available than soil applied phosphate and potassium. Fjord-P supports energy production by providing the plant with easily access sable phosphate for immediate use in ATP synthesis.

NUTRIENT ANALYSIS

Total Nitrogen (N).....	3.00%
3.00% Ammonium Nitrogen	
Soluble Phosphate (P2O5)	13.00%
Soluble Potash (K2O).....	7.00%

Derived from: Ammonium Phosphate, Potassium Phosphate

PROFESSIONAL USE GUIDELINES

RATE OF APPLICATION

FOLIAR APPLICATION: Use 1-4 L/acre as a supplement to a complete fertility program.

METHODS OF APPLICATION: FJORD-P is most effective when used as a foliar spray, but may be applied through conventional methods not limited to foliar spray, such as soil application, drip irrigation, water run, shanking in or hydroponically.

APPLICATION TIMING

FJORD-P can be applied at anytime, but is most effective when applied earlier in the season, when phosphate deficiencies most often occur.

COMPATIBILITY

FJORD-P is compatible with most commodity agricultural products. Use caution when tankmixing with micronutrient fertilizers, adding additional water to tank mixes will always improve compatibility. Always establish compatibility using the standard quart jar method prior to tank mixing.

STORAGE

Do not store where temperatures drop below 0 C.
