# LIQUID CORE™

LIQUID AERATION & NUTRIENT RELEASE FOR LAWNS

Liquid Core™ replaces the need for core aeration and helps improve overall lawn health. It loosens compacted soil so roots can grow more easily and access nutrients. It also helps water soak into the ground better, reducing runoff and improving moisture use. By improving soil structure and increasing airflow, it supports stronger root growth. Liquid Core™ also unlocks nutrients in the soil so your lawn can use them to grow stronger and healthier.

## NUTRIENT ANALYSIS

Total Nitrogen (N) ..... 0.80%

Calcium (Ca) ..... 1.60%

Derived from: Calcium Nitrate.

## USE GUIDELINES

**DIRECTIONS:** For best results, apply to the lawn or garden and water in with irrigation for 20–30 minutes. Apply before 10 AM or after 5PM to reduce evaporation. For optimal results, apply every 4–5 weeks. This product may not provide all required nutrients and should be used as part of a complete fertilization program based on soil testing.

**APPLICATION:** Attach to Hose: Connect the hose-end sprayer to your garden hose, ensuring the connection is secure to prevent leaks. Turn on the water and begin spraying your lawn or garden at a rate of 100–200 mL per 100 square meters. Walk at a steady pace to ensure even coverage. Apply on a calm day to prevent drift.

**Overlap Spray Pattern:** Slightly overlap each pass to ensure even coverage and avoid missed areas.

**COVERAGE:** This bottle contains enough product to treat 400–800 square meters. It may be used multiple times if not fully emptied.

**STORAGE:** Do not store below 0°C.
