TURF-HERO MAX™

PREMIUM FOLIAR NITROGEN FOR LAWNS

Turf-Hero Max™ is a lawn spray that feeds nitrogen through the leaves to help your grass grow thicker and greener all season. Turf-Hero Max™ works more efficiently than regular soil fertilizers and includes added nutrients (molybdenum, nickel, and cobalt) to help your lawn use nitrogen better. Turf-Hero Max™ can be applied when your lawn needs it, and one application lasts about 6–8 weeks. Turf-Hero Max™ is designed to be safe on grass, sticks well to the leaves, and helps the lawn take in nutrients more effectively for strong, consistent growth.

USE GUIDELINES

DIRECTIONS: Apply to the lawn or garden any time when nitrogen deficiency is present or is likely to occur.

APPLICATION: Attach to Hose: Connect the hose-end sprayer to your garden hose, ensuring the connection is secure to prevent leaks. Turn on the water and begin spraying your lawn or garden at a rate of 100–200 mL per 100 square meters. Walk at a steady pace to ensure even coverage. Apply on a calm day to prevent drift.

Overlap Spray Pattern: Slightly overlap each pass to ensure even coverage and avoid missed areas.

COVERAGE: Each 1-litre bottle contains enough product to treat 400–800 square meters. It may be used multiple times if not fully emptied.

STORAGE: Do not store below 0°C.
