

MoNiTM

FULLY PROTECTED MOLYBDENUM, NICKEL & COBALT

SOIL
&
FOLIAR

BENEFITS

MAXIMIZES UTILIZATION OF AMMONIUM, NITRATE AND UREA NITROGEN

ENHANCED GERMINATION AND VIGOR THROUGH FULL CANOPY

ENHANCED NITROGEN-LINKED ENZYMATIC PRODUCTION

PROMOTES EARLY TO MID-SEASON CELL DIVISION

INCREASED LATE-SEASON PROTEIN DEVELOPMENT

BIOTIC AND ABIOTIC STRESS RELIEF

IMPROVES LEGUME NODULATION

MoNi™

FULLY PROTECTED MOLYBDENUM, NICKEL & COBALT

Molybdenum, nickel, and cobalt are essential nutrients for proper plant growth and function. Nitrogen metabolism depends on molybdenum and nickel to convert various forms of nitrogen into amino acids. MoNi™ is a fully protected molybdenum, cobalt, and nickel formulation enriched with beneficial compounds designed to enhance cell division and improve plant stress tolerance.

NUTRIENT ANALYSIS

Soluble Potash (K ₂ O).....	1.00%
Sulfur (S).....	0.50%
Cobalt (Co).....	0.50%
Molybdenum (Mo).....	2.50%
Nickel (Ni).....	0.20%

Derived From: Potassium Hydroxide, Cobalt Sulfate, Sodium Molybdate, and Nickel Sulfate

USE GUIDELINES

RATE OF APPLICATION

Foliar & Soil Applications: 0.15L/ha - 1.24L/ha (60mL-100mL/acre).
Seed Treatment Applications: 10-25mL per bushel

APPLICATION TIMING

Applications of MoNi™ have shown the best results when applied early to mid-season. Best foliar results and plant safety will be obtained when applications are applied early morning or late evening, when the stomata are open.

COMPATIBILITY

MoNi™ is compatible with most commonly used fertilizers and pesticides. Adding additional water to tank mixes will always improve compatibility. Always establish compatibility using the standard jar test method prior to tank mixing.

STORAGE

Do not store below 0°C. Salt-out may occur if storage recommendations aren't strictly followed.
